

## Report of National Webinar on Covid Aftermath on Balance Sheet

The Department of Commerce at Naipunnya Institute of Management and Information Technology hosted a webinar on the topic " Covid Aftermath on Balance Sheet" on 15th July, 2020. The event was headed by Mr.Jiss Jose alongside the Stream Coordinator, Mrs.Bindu .G. The department was fortunate to have had Dr.Arun Kumar as the resource person for the webinar. Dr.Arun Kumar is currently working as the professor in Indian Institute of Technology, Madras and also serves as a journalist in "The Economic Times". He holds a joint position as a Visiting Faculty at the, Asian Institute of Technology, Thailand, alongside countless other achievement's. The webinar was educational and memorable as the knowledge he imparted had a major impact on the way the students tackle problems in the current crisis.

The registration process went live on 5th July with 262 participants registered in a matter of 10 days. The necessary arrangements for the participants had been set beforehand leading to a seamless transition into the webinar. The mode of webinar delivery and the general instructions to be followed by the participants were sent with the registration link, paving way for a better understanding. The event started off at 1:55 PM on 15th of July. Dency Sunny of 3<sup>rd</sup> year finance, addressed the participants and extended her welcome to Dr.Arun Kumar and the participants on behalf of NIMIT.

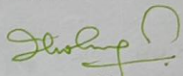

During the session, Dr.Arun Kumar opened the eyes of the participants on the drastic effects of Covid-19 on the balance sheet of companies and businesses around the world. He showed us the influence it had in every person's daily life as well. He was able to draw parallels between the changing business environment and the COVID-19 situation which has disrupted the economy as a whole. The pandemic created unexpected opportunities for many rising entrepreneurs as there are many problems that need to be solved. Domains like biotechnology, pharmaceuticals, agriculture, food processing and telecommunications will experience major paradigm shifts with innovations unlike others in order to keep up with the changing requirements. The speaker also informed the participants of the many services provided by the developmental agencies and the government as a whole. Dr.Arun Kumar was also kind enough to answer the participants regarding any of the misconceptions or queries

they had. Ms .Dency Denny gracefully concluded the event with the vote of thanks, winding up the webinar by 3:30 PM.

The event was attended by 176 participants, from students to teachers to countless others from various fields from across the nation. Participants were issued certificates flawlessly by the end of the day of the seminar. The feedback from participants was positive, encouraging and applauding the department for its initiative. Thanking the faculty members who guided and supported the students in organizing this event, especially the students who gave it their all in this event, held and overall coordinated completely by the students themselves. I hereby submit this report for your consideration.

Arun Kumar Gopalan

## COVID Aftermath on the Balance Sheet

Arun Kumar Gopalaswamy  
Professor & Head  
Department of Management Studies  
IIT Madras

### Context

- No sector is untouched by COVID and lockdowns
- After opening economic pain is expected to prolong
- Corporates with adequate Balance Sheet strength are likely to sustain the impact
- No new AS has been notified for effects of COVID
- Regulators across the globe have indicated about accounting implications of the outbreak.

Vote Of Thanks
