

Report on Note book distribution-Share the gift of knowledge

23/06/2020

During COVID-19, some of our students were really struggling to meet their educational expenses. When our students are going through such difficulties, it was our responsibility to support them. SWAS club of NIMIT has planned to help them by distributing some books available in our store. Class teachers have forwarded the list of students who are in need of note books.

So, as part of the student assistance programme during COVID-19, our institution has helped 34 students of our college by distributing their required number of notebooks.
